

## Disassembly of Super-slim Cassette

### 1. Front Panel and Display Board

i) models except for 60k

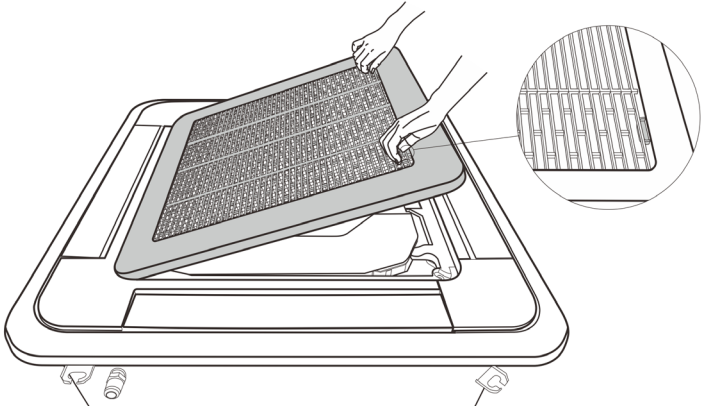

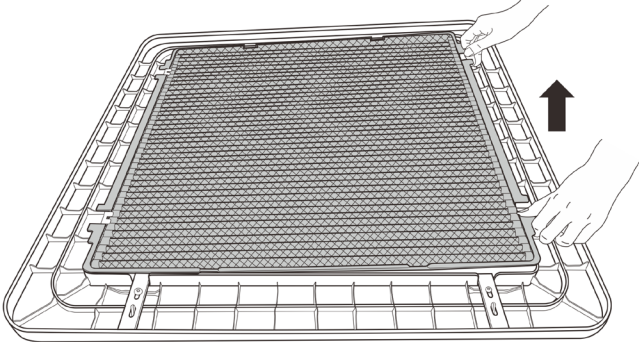

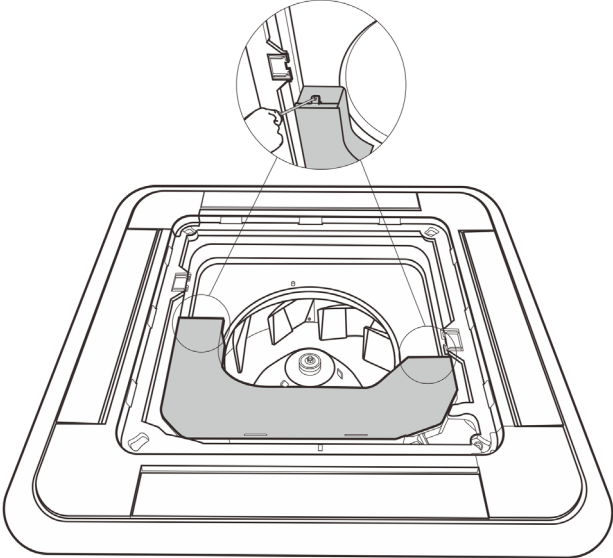

Procedure	Illustration
<p>1) Release 2 hooks and open the panel. (see CJ_CASSETTE_001)</p>	 <p>CJ_CASSETTE_001</p>
<p>2) Pull up the filter. (see CJ_CASSETTE_002)</p>	 <p>CJ_CASSETTE_002</p>

Note: This section is for reference only. Actual unit appearance may vary.

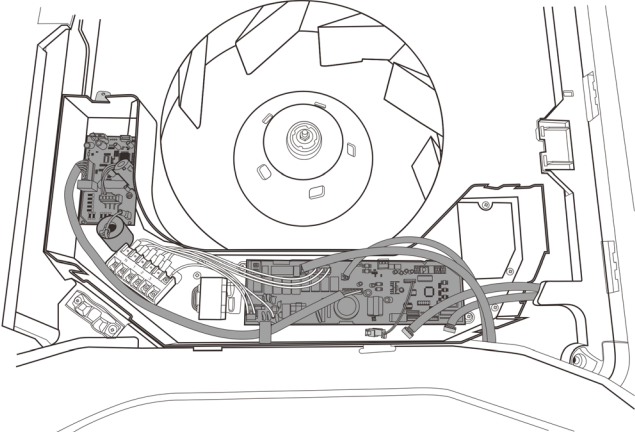

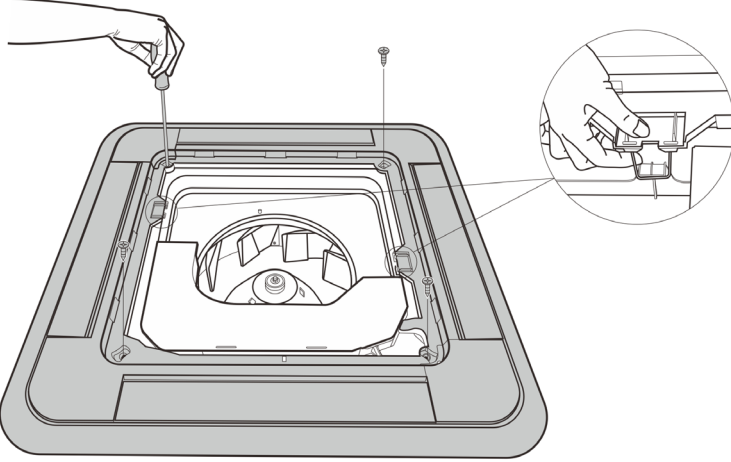

Procedure	Illustration
<p>3) Disconnect the connectors and release the panel. (see CJ_CASSETTE_003)</p>	 <p data-bbox="901 936 1126 965">CJ_CASSETTE_003</p>

Note: This section is for reference only. Actual unit appearance may vary.

ii) 60k models

Procedure	Illustration
<p>1) Release the 2 hooks and open the panel. (see CJ_CASSETTE_004)</p>	 <p style="text-align: center;"><b>CJ_CASSETTE_004</b></p>
<p>2) Turn over the panel, release the hooks and then pull up the filter. (see CJ_CASSETTE_005)</p>	 <p style="text-align: center;"><b>CJ_CASSETTE_005</b></p>
<p>3) Remove the 2 screws and remove the cover of electronic control box. (see CJ_CASSETTE_006)</p>	 <p style="text-align: center;"><b>CJ_CASSETTE_006</b></p>

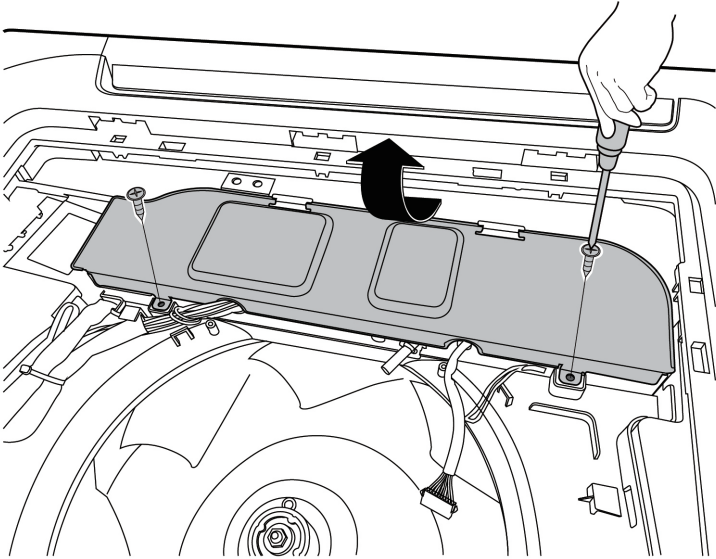

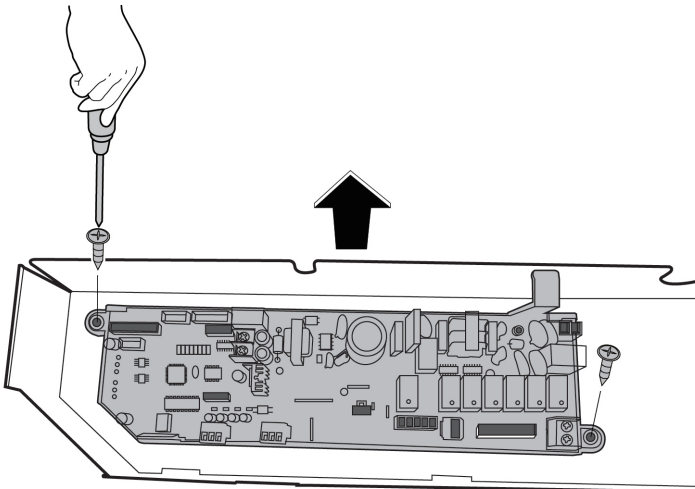

**Note:** This section is for reference only. Actual unit appearance may vary.

Procedure	Illustration
<p>4) Disconnect the connectors of the display board and the fan motor. (see CJ_CASSETTE_007)</p>	 <p style="text-align: center;"><b>CJ_CASSETTE_007</b></p>
<p>5) Remove the 4 screws and release the 2 hooks of the panel. (see CJ_CASSETTE_008)</p>	 <p style="text-align: center;"><b>CJ_CASSETTE_008</b></p>

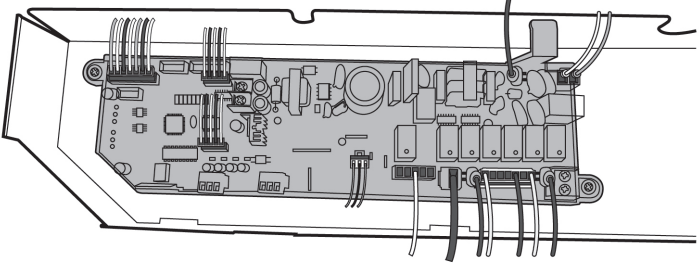

**Note:** This section is for reference only. Actual unit appearance may vary.

## 2. Electrical parts (Antistatic gloves must be worn.)

i) models except for 60k

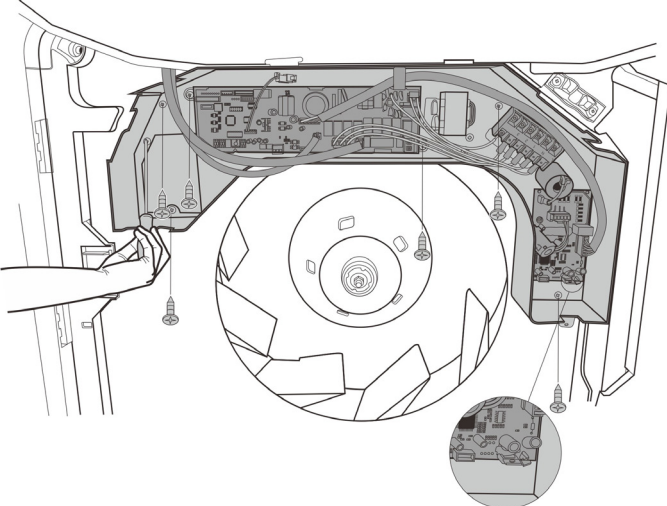

Procedure	Illustration
<p>1) Remove 2 screws and remove the cover of electronic control box. (see CJ_CASSETTE_009)</p>	 <p>The illustration shows a hand using a screwdriver to remove two screws from the top of a rectangular electronic control box. A curved arrow indicates the cover is being lifted away from the unit. The unit is mounted in a chassis with various wires and components visible.</p> <p data-bbox="895 1077 1134 1111">CJ_CASSETTE_009</p>
<p>2) Remove 2 screws of the main control board. (see CJ_CASSETTE_010)</p>	 <p>The illustration shows a hand using a screwdriver to remove two screws from the main control board. A straight arrow points upwards, indicating the board is to be lifted out of its housing. The board is populated with various electronic components like capacitors, resistors, and integrated circuits.</p> <p data-bbox="895 1783 1134 1816">CJ_CASSETTE_010</p>

Note: This section is for reference only. Actual unit appearance may vary.

Procedure	Illustration
<p>3) Disconnect the connectors and then remove the main control board. (see CJ_CASSETTE_011)</p>	 <p data-bbox="893 750 1133 795">CJ_CASSETTE_011</p>

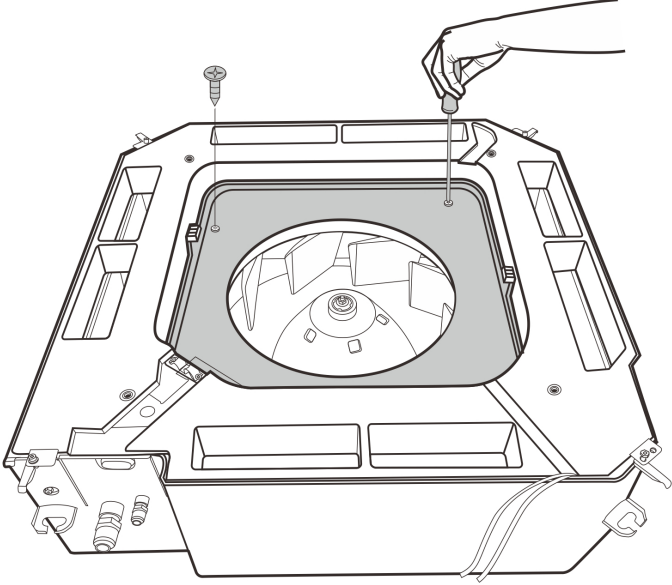

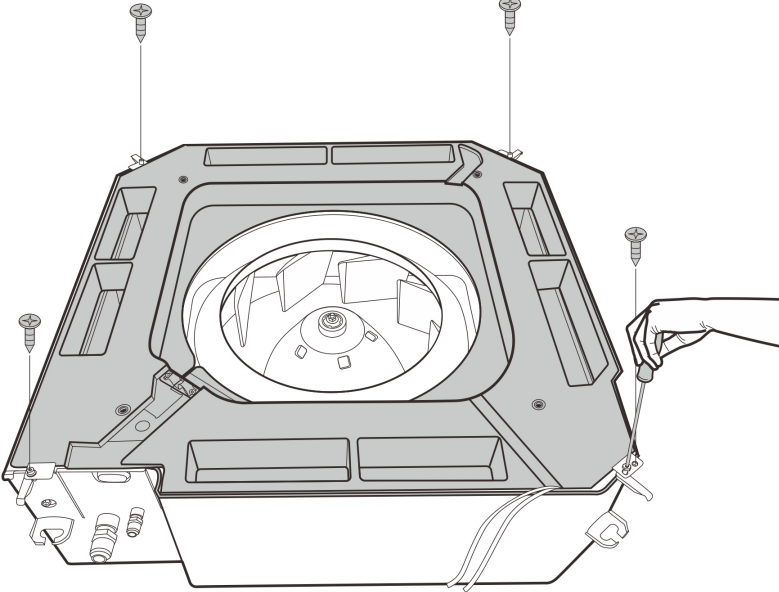

Note: This section is for reference only. Actual unit appearance may vary.

iii) 60k models

Procedure	Illustration
<p>1) Disconnect the connectors and then remove the main control board. (see CJ_CASSETTE_012)</p> <p>2) Remove the 5 screws of the electronic control box. (see CJ_CASSETTE_012)</p>	 <p data-bbox="893 974 1133 1008">CJ_CASSETTE_012</p>

Note: This section is for reference only. Actual unit appearance may vary.

## 7. Water Collector(for 60k models)

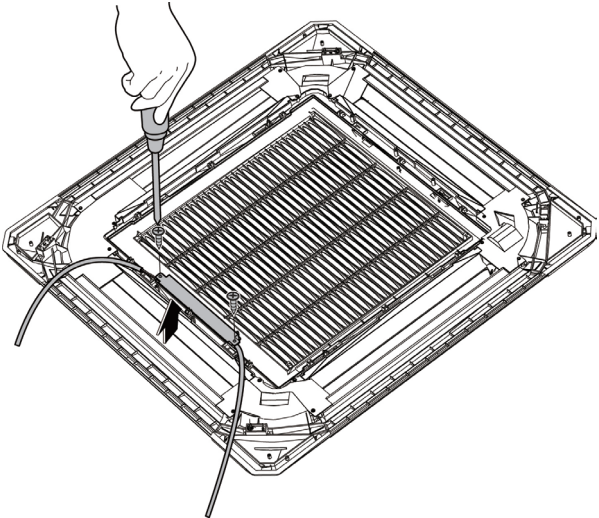

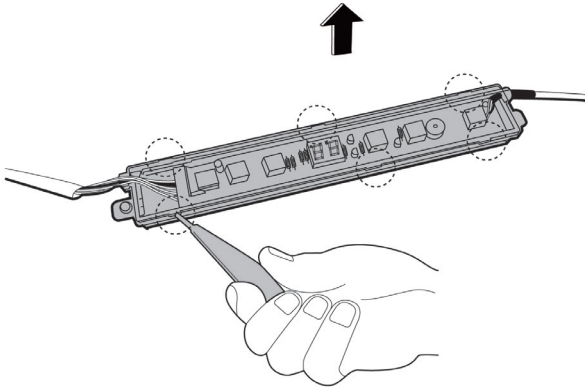

Procedure	Illustration
<p>1) Remove the 2 screws of the ventilation ring. (see CJ_CASSETTE_013)</p>	 <p>CJ_CASSETTE_013</p>
<p>2) Remove the 4 screws of the water collector. (see CJ_CASSETTE_014)</p>	 <p>CJ_CASSETTE_014</p>

**Note:** This section is for reference only. Actual unit appearance may vary.

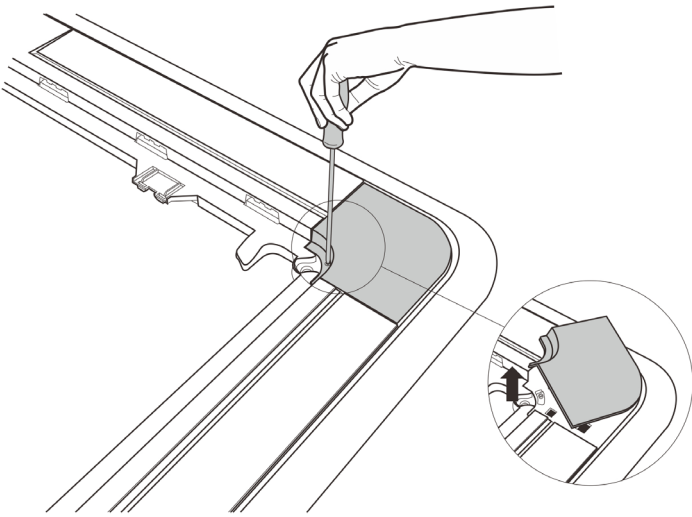

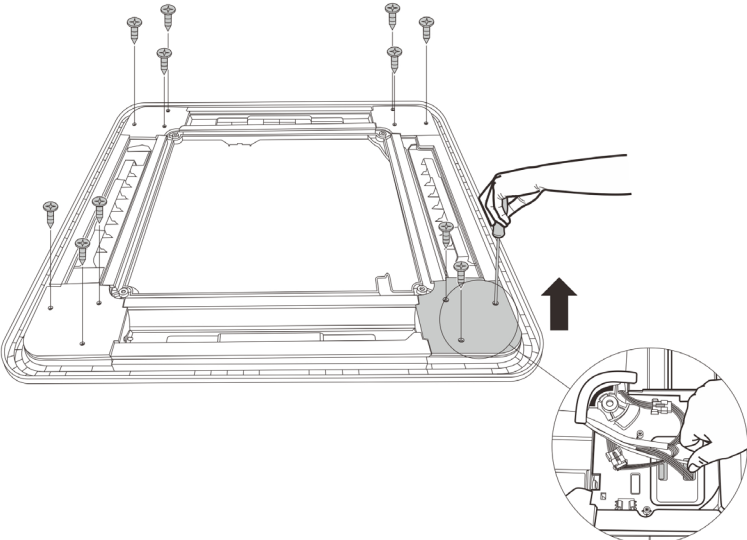

### 3. Display Board

i) models except for 60k

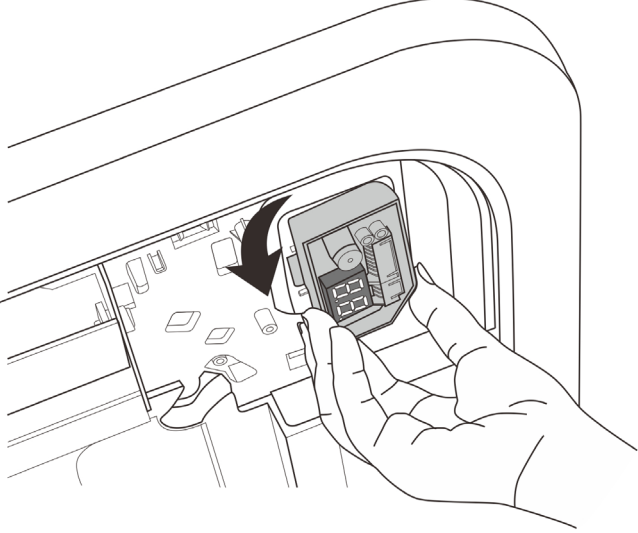

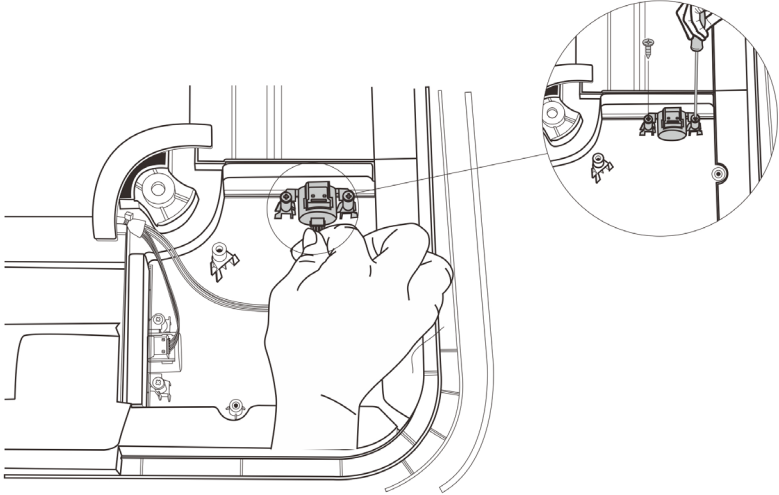

Procedure	Illustration
<p>1) Remove 2 screws of display board and remove the display board. (see CJ_CASSETTE_015)</p>	 <p>CJ_CASSETTE_015</p>
<p>2) Turn over the display board, rise 3 hooks with a flat screwdriver as shown in the figure. (see CJ_CASSETTE_016)</p>	 <p>CJ_CASSETTE_016</p>

Note: This section is for reference only. Actual unit appearance may vary.

iv) 60k models

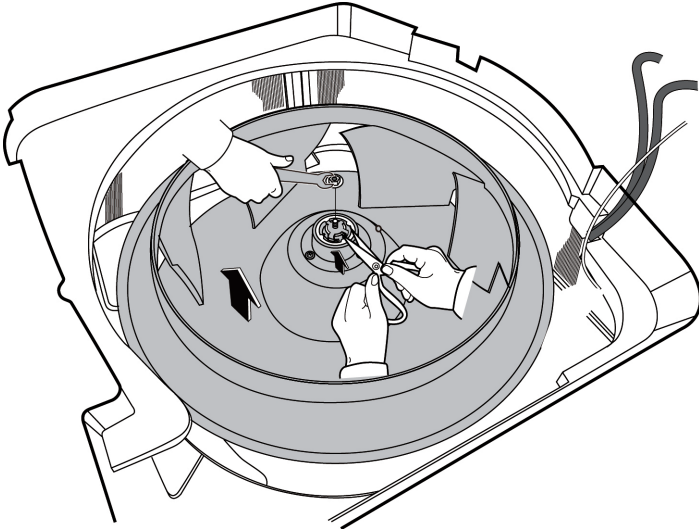

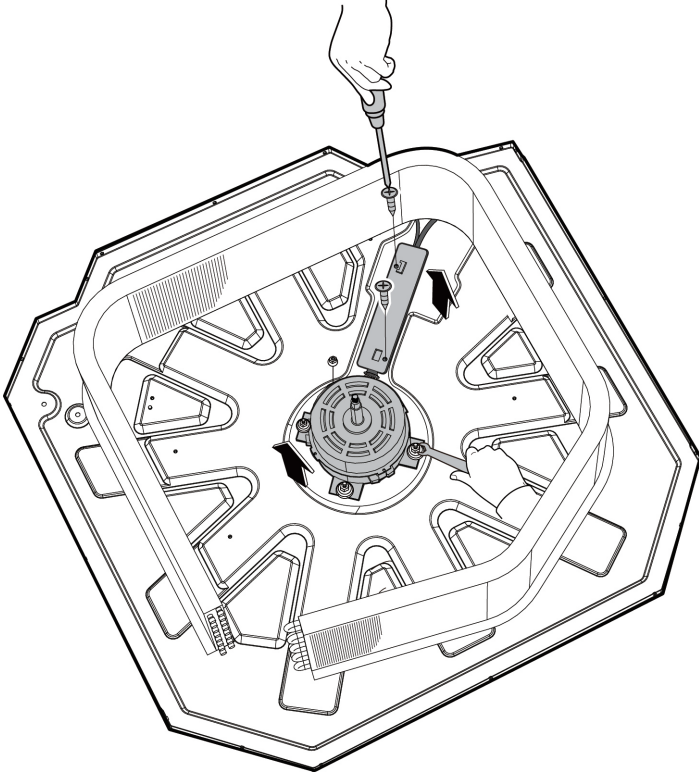

Procedure	Illustration
<p>1) Remove the 1 screw of the display board cover and then pull it up. (see CJ_CASSETTE_017)</p>	 <p>CJ_CASSETTE_017</p>
<p>2) Turn over the panel frame, release the 3 screws of each corner. Then release the hook of the display board. (see CJ_CASSETTE_018)</p>	 <p>CJ_CASSETTE_018</p>

Note: This section is for reference only. Actual unit appearance may vary.

Procedure	Illustration
<p>1) rotate the display board in the direction shown in the figure, then take the display board down. (see CJ_CASSETTE_019)</p>	 <p>The illustration shows a hand holding a rectangular display board. A curved arrow indicates the board is being rotated downwards. The board is positioned above a control panel with various buttons and a small screen.</p> <p style="text-align: center;"><b>CJ_CASSETTE_019</b></p>
<p>2) Remove the 2 screws of the step motor and then disconnect the wire connected to step motor. (see CJ_CASSETTE_020)</p>	 <p>The illustration shows a hand using a screwdriver to remove screws from a step motor. A circular inset provides a magnified view of the motor's base, showing two screws being removed. Wires are connected to the motor.</p> <p style="text-align: center;"><b>CJ_CASSETTE_020</b></p>

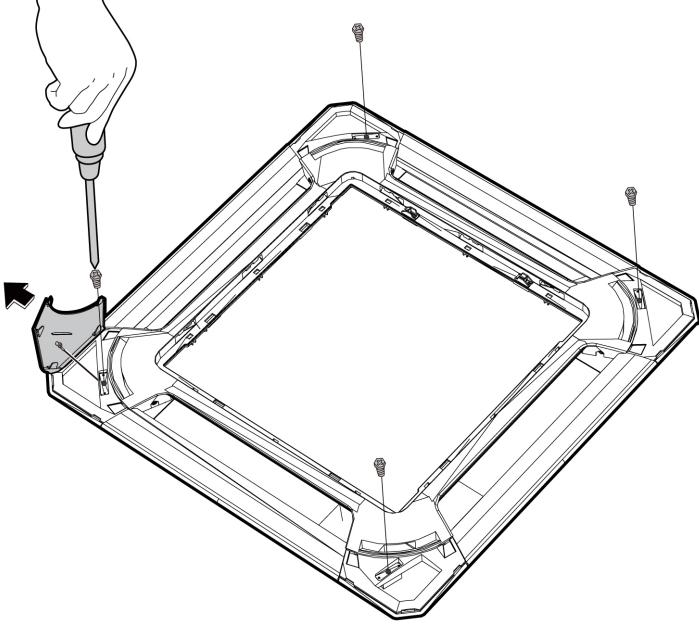

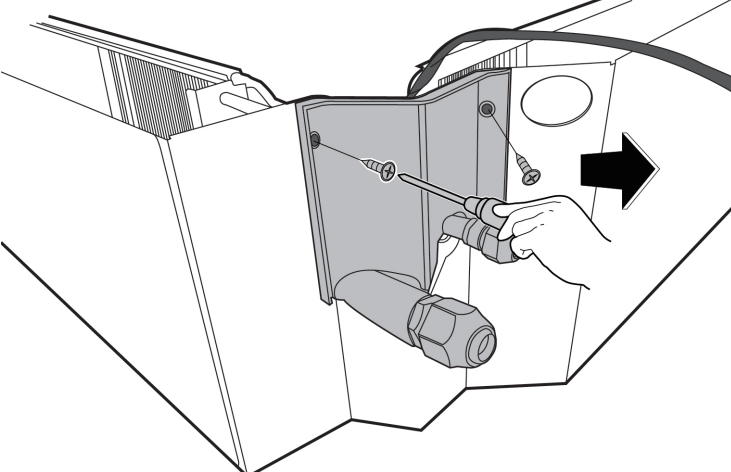

Note: This section is for reference only. Actual unit appearance may vary.

#### 4. Fan motor and fan

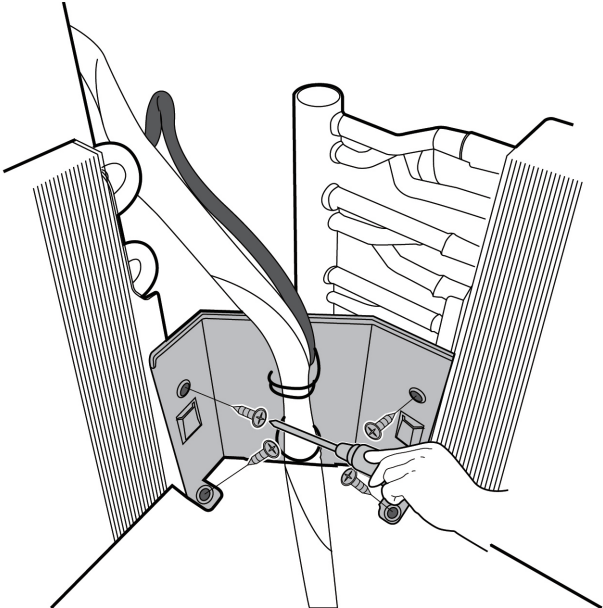

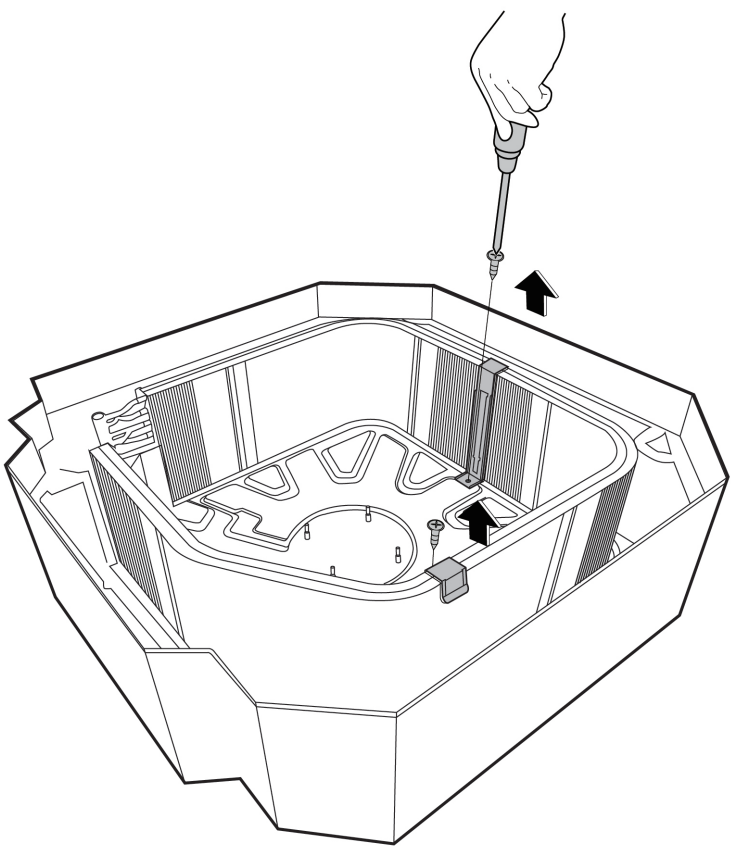

Procedure	Illustration
<p>1) Remove the nut of the fan and then pull up the fan. (see CJ_CASSETTE_021)</p>	 <p>CJ_CASSETTE_021</p>
<p>2) Remove 2 screws of fixing board and 3 nuts of fan motor. (see CJ_CASSETTE_022)</p>	 <p>CJ_CASSETTE_022</p>

Note: This section is for reference only. Actual unit appearance may vary.

## 5. Evaporator

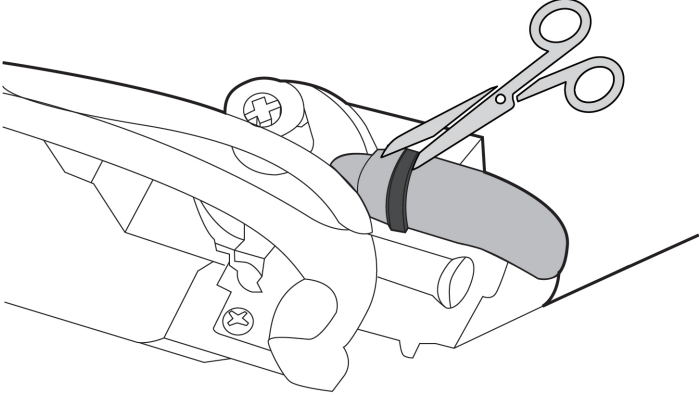

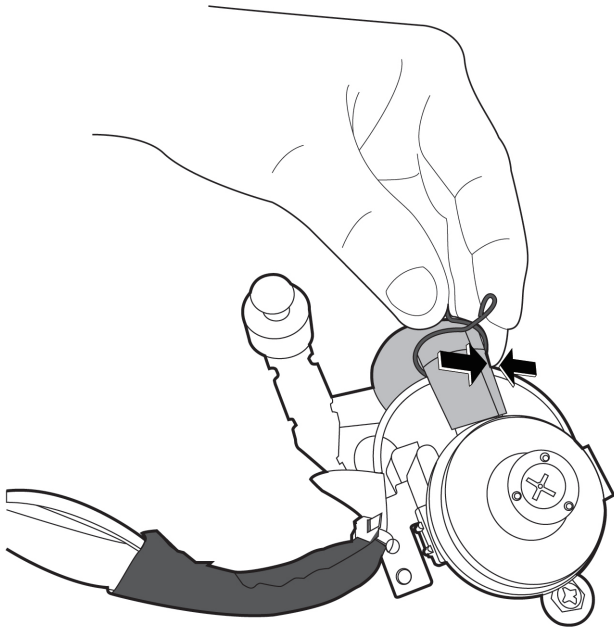

Procedure	Illustration
<p>1) Remove 4 screws of the panel and pull up the panel. (see CJ_CASSETTE_023)</p> <p>2) Remove 2 screws of pipe clamp board. (see CJ_CASSETTE_024)</p>	 <p data-bbox="893 1108 1133 1153">CJ_CASSETTE_023</p>  <p data-bbox="893 1780 1133 1825">CJ_CASSETTE_024</p>

Note: This section is for reference only. Actual unit appearance may vary.

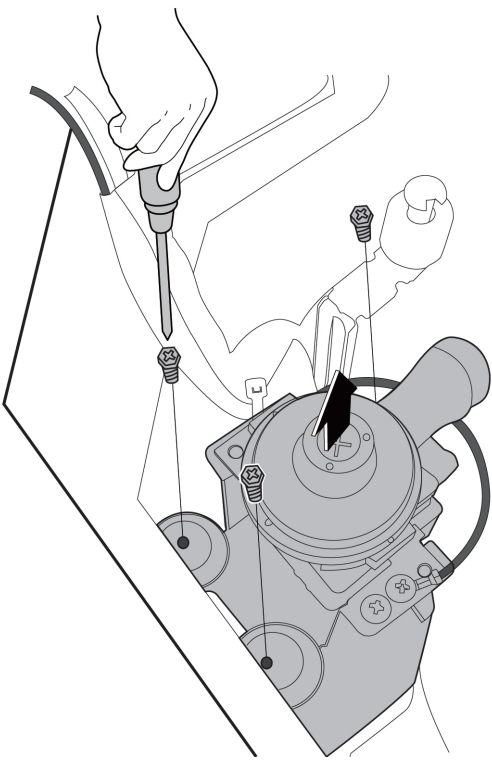

Procedure	Illustration
<p>3) Remove 4 screws of the evaporator support and then remove it. (see CJ_CASSETTE_025)</p>	 <p>CJ_CASSETTE_025</p>
<p>4) Remove 2 screws of the evaporator fixing bracket and then remove it. (see CJ_CASSETTE_026)</p>	 <p>CJ_CASSETTE_026</p>

Note: This section is for reference only. Actual unit appearance may vary.

## 6. Water Pump

Procedure	Illustration
<p>1) Take off the fasten belt of the water pump. (see CJ_CASSETTE_027)</p>	 <p>CJ_CASSETTE_027</p>
<p>2) Pinch the metal wire in the direction shown in the figure to release it. (see CJ_CASSETTE_028)</p>	 <p>CJ_CASSETTE_028</p>

Note: This section is for reference only. Actual unit appearance may vary.

Procedure	Illustration
<p>3) Remove 3 screws and then remove the water pump. (see CJ_CASSETTE_029)</p>	 <p>CJ_CASSETTE_029</p>

Note: This section is for reference only. Actual unit appearance may vary.
